

## **Amiens Village Exhibit in Amiens Resource Centre (ARC)**

Aim: to create a dedicated exhibit regarding the Pikedale Soldier Settlement which contains information collected about all returned Soldiers who participated in this scheme.

### Components:

- Overview information panel detailing the importance of Amiens as a Model Soldier Settlement Village.
- Village Map: There are several options for this. We could a) draw a map on the wall ourselves using an overhead projection – free but will require the assistance of an artist of some sort, b) print and laminate a map similar to the parish and county maps or c) print a map with a sticky backing and have it installed in the same manner as wall paper. Appendix A is the map we wish to use and Appendix B is a quote for option c.
- Pictures of the buildings of the Amiens Village with descriptions. These have been sourced, printed and mounted with black matte at A4 size for the following buildings; Amiens Memorial Hall, Bulk Store, Methodist Church, Amiens Rail Terminus, State Store, State Sawmill, Land's Office, Bush Nursing Association, St Denys Anglican Church, Co-operative Jam and Processing Company, Croft Hotel, Original Post Office, Surveyors Camp, Experimental Farm, Amiens School, Catholic Church, Cannery, Rotten Row and an early soccer team who would have played on the Sports Ground. The idea is to place matching numbers on the map corresponding to the photos with descriptions of those areas. With this method, more sites can be added at a later date. To accompany this is the Amiens Township Guidebook can be purchased and visitors can then take a self-guided walk around the village.
